Subject index

Acetic acid
The corrosion of mild steel in acetic acid-containing atmospheres (Alves, Ferreira) 137
Acid solutions
Electrocatalytic properties of Pt(111), Pt(332), Pt(331) and Pt(110) single crystal electrodes towards ethylene glycol oxidation in sulphuric acid solutions (Sun et al.) 213
Adsorption
The adsorption of ethene at Pt single crystal electrodes. Desorption products and observation of multiple adsorption states by DEMS (Schmiemann, Baltruschat) 357
Algorithms
A method-oriented approach to the formulation of algorithms for electrochemical kinetic simulations (Bieniasz) 19
Aprotic solvents
Triple ion formation ability of picrate in protophobic aprotic solvents with very low basicity (Miyauchi et al.) 197

Cation intercalation
Spectroelectrochemistry of 9-aminoacridine tetracyanoquinodimethane conducting salt electrodes. Proton transport and cation intercalation solid state redox reactions (Mounts et al.) 227
Composition effects
Effect of composition on the point of zero charge of $RuO_2 + TiO_2$ mixed oxides (De Faria, Trasatti) 145
Conducting salt electrodes
Spectroelectrochemistry of 9-aminoacridine tetracyanoquinodimethane conducting salt electrodes. Proton transport and cation intercalation solid state redox reactions (Mounts et al.) 227
Conductometry
Conductometric and potentiometric studies of NaI solutions in water + *sec*-butanol mixtures at 298.15 K. The effect of ion association on the thermodynamic functions of transfer (Bald et al.) 153
Copper
A voltammetric study of the electrodeposition chemistry of the Cu + Se system (Carbonnelle, Lamberts) 53
Corrosion
The corrosion of mild steel in acetic acid-containing atmospheres (Alves, Ferreira) 137
A second-harmonic generation study of a corrosion inhibitor on a mild steel electrode (Joseph, Klenerman) 301
CO_2 sensor
Pulsed titration sensors. Part 1: A breath-by-breath CO_2 sensor (Albery et al.) 99
Pulsed titration sensors. Part 2. A general theoretical model for the breath-by-breath CO_2 sensor (Albery et al.) 111
Counter-ion incorporation
Incorporation of various counter-ions during electropolymerization of 3-methylpyrrole-4-carboxylic acid (Ge et al.) 41

Electrochemical kinetic simulations
A method-oriented approach to the formulation of algorithms for electrochemical kinetic simulations (Bieniasz) 19
Electrochemical measurements
An electrochemical cell for simultaneous electrochemical and spectroelectrochemical measurements under semi-infinite diffusion conditions and thin-layer conditions (Salbeck) 169
Electrodeposition
A voltammetric study of the electrodeposition chemistry of the Cu + Se system (Carbonnelle, Lamberts) 53

Electroluminescence
Photoluminescence and electroluminescence at the TiO_2–electrolyte interface (Poznyak et al.) 73
Electropolymerization
Incorporation of various counter-ions during electropolymerization of 3-methylpyrrole-4-carboxylic acid (Ge et al.) 41
Ethene
The adsorption of ethene at Pt single crystal electrodes. Desorption products and observation of multiple adsorption states by DEMS (Schmiemann, Baltruschat) 357
Ethylene glycol oxidation
Electrocatalytic properties of Pt(111), Pt(332), Pt(331) and Pt(110) single crystal electrodes towards ethylene glycol oxidation in sulphuric acid solutions (Sun et al.) 213

Germanium
The behaviour of germanium adatoms irreversibly adsorbed on platinum single crystals (Gómez et al.) 349
Glucose oxidation
Oxidation of glucose at electrodeposited platinum electrodes (Wilde, Zhang) 241

Halothane
The electrochemical reduction of halothane. II: reaction in the presence of oxygen (Mount et al.) 287

Impedance analysis
Application of electrochemical impedance analysis to the characterization of mass transfer in a submerged impinging jet cell (Bouet et al.) 325
Interfacial reaction
Linear potential sweep adsorption voltammetry for an irreversible interfacial reaction: theory and sensitivity (Jin et al.) 315
Iodine
Surface-EXAFS of irreversibly adsorbed iodine on Pt{111} and Pt{100} (Evans et al.) 365

Metalloporphyrins
Electrocatalysis of metalloporphyrins. Part 12. Chemically modified electrodes with porphyrin-incorporated Nafion coatings (Pang, Wang) 35

3-Methylpyrrole-4-carboxylic acid
Incorporation of various counter-ions during electropolymerization of 3-methylpyrrole-4-carboxylic acid (Ge et al.) 41
Mild steel
The corrosion of mild steel in acetic acid-containing atmospheres (Alves, Ferreira) 137
Mild steel electrode
A second-harmonic generation study of a corrosion inhibitor on a mild steel electrode (Joseph, Klenerman) 301
Mixed oxides
Effect of composition on the point of zero charge of $RuO_2 + TiO_2$ mixed oxides (De Faria, Trasatti) 145
Multilaminar cells
The corrosion of mild steel in acetic acid-containing atmospheres (Alves, Ferreira) 137
Multiple Adsorption States
The adsorption of ethene at Pt single crystal electrodes. Desorption products and observation of multiple adsorption states by DEMS (Schmiemann, Baltruschat) 357

Nafion coatings
Electrocatalysis of metalloporphyrins. Part 12. Chemically modified electrodes with porphyrin-incorporated Nafion coatings (Pang, Wang) 35
Nitroalkane reduction
Electrochemical reduction of some α-substituted nitroalkanes (Rühl et al.) 257

Oleic imidazoline
A second-harmonic generation study of a corrosion inhibitor on a mild steel electrode (Joseph, Klenerman) 301
Oxygen
The electrochemical reduction of halothane. II: reaction in the presence of oxygen (Mount et al.) 287
Oxygen reduction
The reduction of oxygen on titanium oxide electrodes (Baez et al.) 273

Photoluminescence
Photoluminescence and electroluminescence at the TiO_2–electrolyte interface (Poznyak et al.) 73

Picrate
Triple ion formation ability of picrate in protophobic aprotic solvents with very low basicity (Miyauchi et al.) 197
Platinum
The behaviour of germanium adatoms irreversibly adsorbed on platinum single crystals (Gómez et al.) 349
Surface-EXAFS of irreversibly adsorbed iodine on Pt{111} and Pt{100} (Evans et al.) 365
Platinum electrodes
Oxidation of glucose at electrodeposited platinum electrodes (Wilde, Zhang) 241
Polyaniline films
Photographic measurements of propagation speeds of the conducting zone in polyaniline films during electrochemical switching (Aoki et al.) 127
Poly(3-methylthiophene)
Radioelectrochemical study of the behavior of an $NaClO_4$ electrolyte cation in poly(3-methylthiophene) conducting polymer film electrodes (Lee) 333
Porphyrin
Electrocatalysis of metalloporphyrins. Part 12. Chemically modified electrodes with porphyrin-incorporated Nafion coatings (Pang, Wang) 35
Potential sweep adsorption voltammetry
Linear potential sweep adsorption voltammetry for an irreversible interfacial reaction: theory and sensitivity (Jin et al.) 315
Potentiometry
Conductometric and potentiometric studies of NaI solutions in water + *sec*-butanol mixtures at 298.15 K. The effect of ion association on the thermodynamic functions of transfer (Bald et al.) 153
Propagation
Photographic measurements of propagation speeds of the conducting zone in polyaniline films during electrochemical switching (Aoki et al.) 127
Proton transport
Spectroelectrochemistry of 9-aminoacridine tetracyanoquinodimethane conducting salt electrodes. Proton transport and cation intercalation solid state redox reactions (Mounts et al.) 227
Protophobic
Triple ion formation ability of picrate in protophobic aprotic solvents with very low basicity (Miyauchi et al.) 197
Pulsed titration sensors
Pulsed titration sensors. Part 1: A breath-by-breath CO_2 sensor (Albery et al.) 99
Pulsed titration sensors. Part 2. A general theoretical model for the breath-by-breath CO_2 sensor (Albery et al.) 111

Radiochemistry
Radioelectrochemical study of the behavior of an $NaClO_4$ electrolyte cation in poly(3-methylthiophene) conducting polymer film electrodes (Lee) 333
Redox
Spectroelectrochemistry of 9-aminoacridine tetracyanoquinodimethane conducting salt electrodes. Proton transport and cation intercalation solid state redox reactions (Mounts et al.) 227
Redox-dependent binding in a viologen host (Fonseca et al.) 341

Selenium
A voltammetric study of the electrodeposition chemistry of the Cu + Se system (Carbonnelle, Lamberts) 53
Semi-infinite diffusion
An electrochemical cell for simultaneous electrochemical and spectroelectrochemical measurements under semi-infinite diffusion conditions and thin-layer conditions (Salbeck) 169
Single crystal electrodes
Electrocatalytic properties of Pt(111), Pt(332), Pt(331) and Pt(110) single crystal electrodes towards ethylene glycol oxidation in sulphuric acid solutions (Sun et al.) 213
Sodium iodide
Conductometric and potentiometric studies of NaI solutions in water + *sec*-butanol mixtures at 298.15 K. The effect of ion association on the thermodynamic functions of transfer (Bald et al.) 153
Spectroelectrochemical measurements
An electrochemical cell for simultaneous electrochemical and spectroelectrochemical measurements under semi-infinite diffusion conditions and thin-layer conditions (Salbeck) 169

Spectroelectrochemistry
Spectroelectrochemistry of 9-aminoacridine tetracyanoquinodimethane conducting salt electrodes. Proton transport and cation intercalation solid state redox reactions (Mounts et al.) 227
Submerged impinging jet cell
Application of electrochemical impedance analysis to the characterization of mass transfer in a submerged impinging jet cell (Bouet et al.) 325
Surface-EXAFS
Surface-EXAFS of irreversibly adsorbed iodine on Pt{111} and Pt{100} (Evans et al.) 365

Thermodynamics
Conductometric and potentiometric studies of NaI solutions in water + *sec*-butanol mixtures at 298.15 K. The effect of ion association on the thermodynamic functions of transfer (Bald et al.) 153
Thin-layer conditions
An electrochemical cell for simultaneous electrochemical and spectroelectrochemical measurements under semi-infinite diffusion conditions and thin-layer conditions (Salbeck) 169
TiO_2 film electrodes
Photoluminescence and electroluminescence at the TiO_2–electrolyte interface (Poznyak et al.) 73
Titanium oxide electrodes
The reduction of oxygen on titanium oxide electrodes (Baez et al.) 273
Triple ion formation
Triple ion formation ability of picrate in protophobic aprotic solvents with very low basicity (Miyauchi et al.) 197

Viologen
Redox-dependent binding in a viologen host (Fonseca et al.) 341
